

Did you know that your lunch benefit is worth of money?

Your employer offers you lunch benefit as a fringe benefit. By using your benefit you will save up to € 1000 a year! For example, if your employer offers you € 200 of lunch benefit, you will pay for it as follows:

FRINGE BENEFIT

Your employer pays the whole benefit in addition to your salary.

If your employer offers you € 200 of lunch benefit and your tax rate is 30 %, you will pay only € 45!*

$$*0,30 \times (200 \times 0,75) = 45 \text{ €}$$

Save money by eating - count your savings with Edenred's **savings calculator**.

Please note that when using vouchers you will not get the change back!

You can search places, where to use your benefit, by using Edenred's **places search**.

Over 15 000 restaurants all over Finland

NB! Lunch benefit includes also meals bought from a grocery store. You can pay, for example, warm meals, sandwiches and meals bought from a service counter by using vouchers.

However, goods, alcohol, tobacco products, groceries, ready meals, and industrially packed foods **cannot be paid** with lunch vouchers.
