

**MyChoice** offers you freedom of choice in how you use employee benefits. You can now transfer balance between your Recreational (Virike) and Transport benefit accounts and decide for yourself whether to use your benefits for sports fees, movie tickets or a museum card, or whether to take advantage of them for public transport or city bikes. How and what you want to use your benefits for, that is your choice.

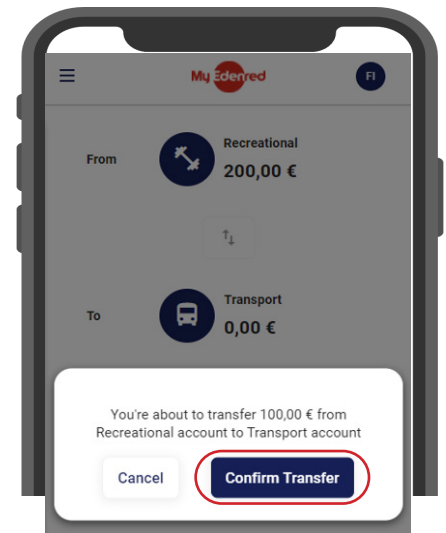

Using MyChoice is easy – just follow the steps below:

1. Go to MyEdenred main page, open menu from the upper left corner (☰) and press **MyChoice**.

2. Choose from which benefit you want to move balance to another. You can change the selection from the **arrows**. **Insert the sum** you wish to transfer and press **Transfer**.

3. **Confirm transfer** and you are ready to use your "new" benefit balance!

*Please note the limits on employee benefits set by the Tax Administration, see below!*

## Note!

- **The number of transactions is limited:** You can make 5 transfers in 30 days.
- **Balance transfers are done real-time:** You can use your benefit with the transferred balance immediately after the transfer has been made!
- **The Finnish tax authority sets annual limits on each type of employee benefit:** MyChoice automatically makes sure that you do not add more balance to a benefit account than the tax limits allow.
- **For 2021, the limits are:**
  - Recreational = 400€/year
  - Transport = 3400€/year

**Note!** The benefit balance can go over the annual limit if you have balance left over from last year.
